EXPERIENCE

Glass Lewis Inc., Makati city — *Webflow/Hubspot developer*

July 2024 - Oct 2025

- Part of the in-house development team for a multi-billion-dollar global company, collaborating across departments including Marketing, HR, DevOps, and executive leadership.
- Maintain and enhance the company's **Webflow**-based website, including CMS collections, reusable components, responsive page structures, and SEO-friendly practices.
- Directly report to the Vice President of Revenue Marketing, ensuring alignment of web strategy with marketing goals.
- Develop and customize landing pages in **HubSpot**, implementing seamless integrations with Webflow for consistent branding and performance tracking.
- Automate workflows and data transfers using **Zapier** to enhance operational efficiency and reduce manual tasks across platforms.
- Trusted to work independently on high-impact projects, while also contributing in team-based, cross-functional environments.
- Collaborate with stakeholders to translate business requirements into user-friendly and performant web experiences.
- Ensure compliance with accessibility standards (WCAG) and best practices for UI/UX, performance, and mobile responsiveness.

Alltel Australia, Makati city — *Web developer*

September 2020 - July 2024

- In-house team for an Australian telecom company responsible for site maintenance, solutions, forms, and page development.
- Directly reporting to the team leader and conducting stand-up meetings, which include planning and launching campaigns and pages.
- Reduced the time required for future development by building the page using ACF PRO (for custom repeaters) and custom-built functions (recycling codes or global codes).
- Developed the custom forms (via API) and significantly reduced errors, fraud, and spam by implementing functionalities such as validation, ReCaptcha, fraud check, and the Google API address.
- Developed important pages such as plans and pricing and
